Re: Mueller Co. (Illinois EPA BOA ID# 115015AGL)
Federally Enforceable State Operating Permit Revision (04070077)

To Distribution List:

In accordance with the Illinois EPA's Environmental Justice Policy, the Illinois EPA wants to provide you with information about a potential Illinois EPA action in your area. The Illinois EPA is sending this letter to notify you an application received by the Illinois EPA Bureau of Air (BOA).

The Illinois EPA has received an application from Mueller Co. requesting to revise its Federally Enforceable State Operating Permit for its brass foundry located at 1226 East Garfield Avenue in Decatur.

The FESOP is the operating permit for the facility. The 1990 amendments to the Clean Air Act require potentially major sources of air emissions to obtain federally enforceable operating permits. A FESOP permit allows a source that is potentially major to take operational limits in the permit so that it is a non-major source.

The Illinois EPA's Bureau of Air is reviewing the applications.

If you have any questions about the application, please contact Elizabeth Rupel, Office of Community Relations at 217/557-6474, elizabeth.rupel@illinois.gov

Sincerely,

Chris Pressnall
Environmental Justice Officer
